

Terms and Conditions for Mill Test Reports

The terms and conditions which appear on the paper copy of the Algoma Steel Inc. (Algoma) Mill Test Report also apply to the EDI version (the ANSI X.12 863 transaction) of Algoma's Mill Test Report and are as follows:

Algoma hereby certifies that the material herein described was made and tested in accordance with the rules of the specification shown. All results are retained in accordance with the company's standard record keeping practices.

This Mill Test Report may not be reproduced except in full without written approval of Algoma. If you receive this document and are not the intended receiver please call (705) 945-2624 collect for instructions on the method of disposal of document.

The test results and values reported herein indicate only that (1) the particular steel for which this certificate is issued meets the minimum specified yield strength; and (2) the chemical analysis and physical properties of such steel are in conformance with the requirements of the specification indicated. The results or values reported herein cannot be used to qualify the steel for any specification other than the one indicated and cannot be relied upon for any purpose (including design or calculations) as representing the actual strength of such steel.

The terms and conditions are subject to change without notice.
