**RE: Proposition 65 Statement**

This letter is provided by Algoma Steel Inc. (Algoma Steel) for customers to evaluate their compliance obligations under California's Safe Drinking Water and Toxic Enforcement Act which is commonly referred to as Proposition 65 (Prop 65).

Algoma Steel is an integrated steel producer based in Sault Ste. Marie, Ontario, Canada which manufactures hot and cold rolled steel products, including hot and cold rolled sheet and plate. As a manufacturer of these products, Algoma Steel provides Safety Data Sheets to its customers that identify chemicals that are present in purchased products. Algoma Steel's steel products may contain trace quantities of chromium and nickel as indicated on Safety Data Sheets. These chemicals are also listed chemicals on the Prop 65 list as chemicals that are known to the State of California to cause cancer or reproductive toxicity. Algoma Steel customers will need to further evaluate this information in making their Prop 65 warning determinations for customer products sold in California.

Algoma Steel's Safety Data Sheets are prepared solely to comply with applicable U.S. safety laws and are not intended to satisfy any customer Prop 65 requirement. Algoma Steel customers are responsible for making their own Prop 65 warning determination with respect to any customer products sold into the State of California that may contain or otherwise use Algoma Steel products.

If there are any questions or concerns regarding this letter please don't hesitate to contact the undersigned.

Sincerely,

Fred Post

A handwritten signature in blue ink that reads "Fred Post".
